

PROTECTION FOR YOUR ENGINE NACELLE, PEACE OF MIND FOR YOU.

HTF Nacelle Maintenance Service Plan

Honeywell

PROTECTION FOR YOUR ENGINE NACELLE, PEACE OF MIND FOR YOU.

At Honeywell, we value your peace of mind as much as you value your aircraft. We know your aircraft is an important investment that you wish to protect by keeping it risk-free, well maintained, and always ready for takeoff. You can now benefit from additional maintenance coverage for your nacelle system that reduces downtime, limits unexpected repair costs, and offers better control over maintenance needs and budgets. With our HTF Nacelle Maintenance Service Plan (MSP), you get to choose from multiple tiers of the program to select the solution that best fits your operational requirements, reduces your maintenance costs and increases the efficiency of your operation – granting you peace of mind.

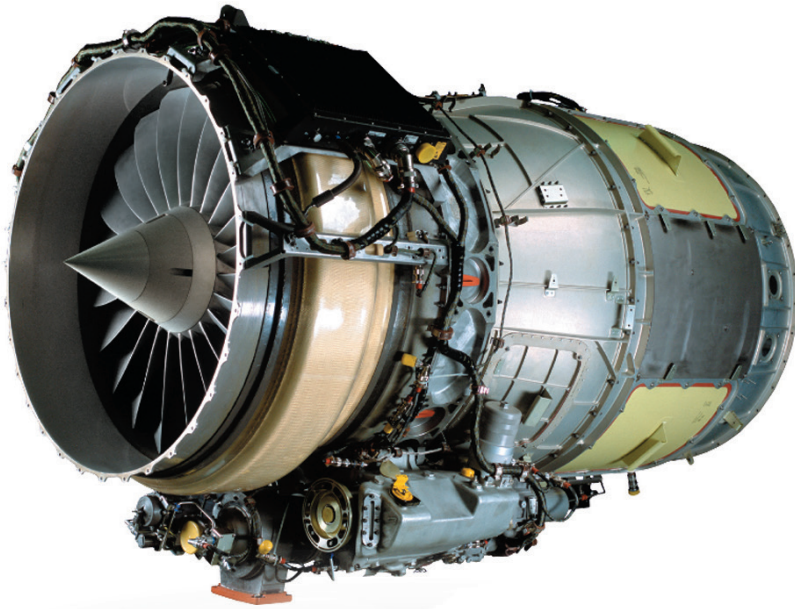

THERE FOR YOU WHEN YOU NEED IT

When the unexpected happens, your MSP HTF Nacelle coverage ensures that your aircraft benefits from best-in-class maintenance services every time. Your aircraft will receive quick service from our technical product experts and service centers, making sure it is back in the air fast. This way you can focus on what matters most for you and your operations.

KEY BENEFITS

- 2 tiers of coverage to align to your needs:
 - MSP Preferred – Comprehensive coverage for scheduled and unscheduled maintenance including corrosion treatment, repair and replacement.
 - MSP Essential – Coverage for scheduled and unscheduled maintenance with options for corrosion treatment.
- Predictable budget and costs
- Enhanced resale and trade in value of the aircraft
- OEM-authorized repairs and replacement parts
- Increased aircraft availability

THE MORE, THE BETTER

Multiple options bring you multiple benefits. HTF Nacelle MSP comes packed with features that include routine inspections, treatment and repair of corrosion, and/or replacement* of nacelle components when Beyond Economic Repair (BER).

This makes it the ideal choice for your Challenger 300 (HTF7000), Challenger 350 (HTF7350), Legacy 450/500, Praetor 500/600 (HTF7500), and Gulfstream G280 (HTF7250) aircraft.

And coupled with our simple-to-understand MSP Propulsion program, award-winning Honeywell customer service, and the Original Equipment Manufacturer (OEM) brand, the MSP HTF Nacelle is a comprehensive solution for your Honeywell propulsion system.

AVOID UNSCHEDULED EXPENSES

If you experience unplanned maintenance costs and corrosion issues, MSP HTF Nacelle will cover scheduled or unscheduled maintenance and corrosion providing dispatch ability, budget control and peace of mind.

Key Features MSP HTF Nacelle:
