

# A330/340 LED LOGO LIGHT

Shaping the future of aerospace lighting for over 85 years

Honeywell Aerospace – A worldwide leader in the design, supply and support of exterior aircraft lighting systems.

Honeywell offers a new LED Logo Light to replace existing Halogen based lights installed on the A330 and A340 aircraft for increased reliability and illumination.

## HONEYWELL LED LIGHTING LEADERSHIP

- Unparalleled Experience: 20 years of LED experience on the exterior of aircraft with over 3 billion LED flight hours
- Honeywell LED products undergo rigorous testing to ensure they meet advertised performance and the minimum light output required
- Based on proven experience meeting performance, quality, reliability and on-time delivery commitments, Honeywell optimizes our LED applications in the areas of:
  - Optical design and control
  - Power management
  - Thermal management
  - Environmental protection

## PRODUCT BENEFITS

- Plug-and-play LED upgrade
- Increases aircraft safety and recognition through improved light output, color and uniformity
- Reduces operator costs through:
  - Reduction in maintenance and improvement in aircraft availability
  - Photometric life up to 50,000 hrs.
  - Built-in thermal management to sustain light output over the life of the LEDs
- Robust environmental protection
- Input power reduced by over 50%
- No scheduled maintenance.

## PLUG-AND-PLAY

- LED upgrade with no aircraft modifications

## PHOTOMETRIC LIFE

- Up to 50,000 hrs

## POWER SAVINGS

- Input power reduced by >50%

## RELIABILITY

- Increased reliability with LED technology and fluids robustness

## LIGHT OUTPUT

- Increased illumination and uniformity on the aircraft tail for brighter logo graphics

## LOGO LIGHT PARTS LIST

LEGACY P/N REPLACED	PRODUCT DESCRIPTION	NEW LED P/N	QUANTITY PER AIRCRAFT
30-2581-3	Logo Light	72303364-001	2
